

## A Living Archive of Transformation

This PDF captures the treasured experiences of clients who have walked their healing and growth journey with Roshani Shenazz. It is a curated treasury of heartfelt experiences from individuals whose lives were touched through Roshani Shenazz's guidance, healing sessions, transformative mentoring and profound support from Roshani Shenazz.

It begins with an experience that Roshani herself went through with a Coma Patient at the initial stages of her journey in 2011, as an Energy Healing Medium and Therapist. Roshani says; *"I share this only for the reason of giving hope, faith and trust for the Divine in your heart. After the experience are loving heartfelt words of testimonies from beautiful souls that God has got to me in my journey of being His instrument of Love, Light, Guidance, Healing, and Transformation."*

### EXPERIENCE - ROSHANI SHENAZZ - 2012

My life transformed irrevocably after a near life-and-death experience that brought a sudden close to my two decades in the glamour industry. What seemed like an ending at that time was actually the beginning of a sacred calling I had never imagined. In the years that followed, I found myself being worked upon by Divine healing energies and receiving channeled messages meant first for my own transformation. I did not seek this path; this path found me.

It was Divinity that whispered the name of the work I was being prepared for—*Soul Guidance*. It was revealed to me that guidance and healing could flow through me from Guardian Angels, Archangels, and the Divine Beings appointed by God for humanity's wellbeing. Soon after, I was shown that through a person's name and date of birth—or even the name of someone connected to them—I could tune into their soul energy and receive messages meant for their highest good. But the truth was even more profound: the messages began long before I knew any such details. When Divinity intended to reach someone, the message arrived unprompted, without asking, knowing, or seeking.

As this gateway opened, I was given sacred laws to safeguard the purity of the work. I was instructed never to engage in deceased mediumship, never to dabble curiously in any modality not guided for me, and never to call myself a "Healer." I was taught that we are nothing more than pipes—Earthly conduits—through which God's work flows. I was guided never to filter, edit, or soften the messages, neither to please nor to protect, and to always honor this work as *Complementing Therapy*, never "alternative," because Divine systems are designed to complement life, not replace it.

One of the earliest and most defining experiences of my mediumship unfolded in the simplest of settings—a friend's dinner gathering. I had only recently stepped out publicly as a sacred medium. Among the guests was someone I had never met, sitting quietly across the room. Without warning, a message descended: "Release the tension about the health of the elder in the hospital. All shall be well."

I resisted at first, overwhelmed by the responsibility. I walked away. Yet destiny had other plans. The person later sat beside me, and it felt as if unseen hands gently pushed the words out of my mouth. I delivered the message. Startled, the person walked away, and my human mind spiralled—*Why did I say that? What must they think?*

Moments later, the same person approached me again. They apologized and revealed the truth: an aunt was in a coma. They asked how I knew. I briefly shared the new path opening within me. They requested help, and I was guided to respond simply:

“Ask your cousin to call me. If God wishes to work through me, she will reach out, and things will align.”

Two weeks later, the call arrived. The daughter spoke of her mother’s condition—information that aligned precisely with the emotional causes and unseen layers revealed through guidance. Medical reports had shown no reason for the coma; yet the spiritual roots were clear. Despite resistance from the family, the daughter agreed to the healing sessions. I visited the hospital thrice a week, offering the divinely guided work.

A timeline was given for her awakening, and she returned to consciousness exactly within those dates. But the greatest revelation was yet to come.

She had never known me. During every session, she had been in the ICU, in a coma. Three weeks after she regained consciousness, I went to visit. As I entered the room, filled with family members, she looked directly at me and asked: “Where were you all these days? Why didn’t you come to meet me?”

Her daughter and I stood stunned. She continued: “This is the one I kept asking you about the ‘ponytail friend’ who prayed for me.” Her daughter insisted it could not be me because she had only ever seen me with open hair. I then explained that I am divinely guided to tie my hair during all healing work. And that is exactly how her mother had “seen” me—through her soul’s vision, not her physical eyes.

That moment sealed the truth of what I had already begun to understand: that I was being used as an instrument of Divine Grace. It also brought healing to a deep wound within me—the passing of my own mother through a coma. It affirmed what my soul already knew: even in a comatose state, the soul sees, hears, feels, and experiences everything.

This sacred encounter was not just proof of Divine intervention—it was the Divine gently revealing to me the sanctity, responsibility, and purpose of the path I had been placed upon. I thank my Beloved God Avatar Meher Baba for bringing me to His FEET His Doorstep in this incarnation, and giving me the blessed opportunity to be of service in spreading His Love and Light into the World.

**Thank YOU, BABA, for Everything. Blessings to All. ❤️ JAI MEHER BABA.**

## HEARTS SPEAKS EXPERIENCES

Presented here are further sacred testimonies of experiences which are living reflections of the love, grace, and quiet miracles of the Angelic realms. These transformational experiences come from cherished friends and clients who have encountered the presence of the Angels through their deeply personal one-on-one guidance and mentoring sessions. Each experience bears witness to the unseen yet ever-present Divine support that flows when souls open themselves to God and His wisdom through His Task Force in the Angelic Realms. These are not mere stories, but affirmations of how Divine love, guidance, and healing continue to touch lives—gently, profoundly, and unmistakably—through the language of the Angels.

“Dear friends I would like to give thanks to Roshani Shenazz my mentor with whom I learned the Angel Soul Therapy. I had a few experiences before the course, but was not aware about that until I did this workshop. Now I have become aware about the signs and signals from the Angels. I feel a deeper contact with the Angels after this course. Once after the workshop, I had locked my house as usual, and I was waiting for the lift. Suddenly the Angels reminded me to take my id card, when I opened the door, the Angels drew my attention to the geyser that was on, I couldn’t imagine what would have happened to my house, if I was not reminded of the ID card, which is usually in my purse, but that day somehow was on the study table. Another time again it was a huge health scare and I was told in guidance to see a doctor when nothing symptomatic appeared that time. But I take guidance very sacredly and immediately went just to be in shock that I would need an urgent surgery for fibroids. The doctors where alarmed as to how I had survived all those clusters when they described what they saved me from. Another difference I found is, that, I’m a little short-tempered person, I lose my temper very soon, I had some issues in the office and the entire office was against me including my team leaders my managers and others. I had put down my papers as well. I spoke with Roshani and she said these were my tests, and not to put in the papers, there is a helping person soon going to surface. During that time there was a new Ops manager and he took my side and resolved all problems, the magic is that, which I saw much later, that he had a permanent tattoo on his forearm of Angels wings, once again my Angels showed their presence in my life with the evidence, and I felt that they also said in my ears that we are here in his form, and if my mind mistrusted that, I should just look at the wings ☺ ~ **ANGEL SOUL THERAPY STUDENT,**

"I met up with Roshani Shenazz on one of my low days and as we sat for the Soul Guidance session, even before I could tell her how I was feeling. She started channelling some messages. She described to me that my Guardian Angels are mentioning this energy which was in front of me, and she was being told that this energy is in a Red colour blouse or top, very protective of me, loves fragrances, is jovial and happy, had a blunt haircut, and was fair. And as she was mentioning these detailed descriptions, I knew it was a deceased loved one of mine. I was thrilled to know that this energy revealed itself to her and her Guardian Angels gave her a message for me to beware of some people in life that are about to enter. Roshani saw it protecting me with white light at that point in time. It was amazing purely because the details that she gave were very specific like what the energy's likes and dislikes on earth were when that energy was alive on earth. What amazed me most was after the session got over, I suddenly realized that I had this deceased loves one's picture in my wallet and when I removed it and showed it to Roshani, Lo Behold! She was wearing a Red Top in that pic, and gracefully smiling in her blunt hairstyle. Roshani confirmed it was the same face shown in her mind's eye whose Angels got messages for me. I thanked the energy for the guidance that was given to me as we ended the session." ~ **SAILESH B., MUMBAI, - INDIA (NAME CHANGED FOR PRIVACY)**

"Roshani Shenazz Ma'am is a Ray of Light, a source of Hope, a mentor, a Pure Soul, a genuine Healing Medium and a true Spiritual Guide in every sense. As they say, when the inner calling aligns with Divine timing, the right guide appears. Even though I seeked to meet her way before our actual interaction, I just was not able to get in touch with her. Baba led me to her at that divine moment when my soul was crying for direction, and that blessing changed everything for me. Although I have never met her in person, my connection with her through our online sessions has felt profoundly familiar, as if I have known her for lifetimes. Even from miles away, she intuitively senses when my energy is low or when I am feeling vulnerable. Whenever I feel stuck or seek guidance, I reach out to her like one would to an Angel—and she has always responded with clarity and compassion. For me, she is truly Baba's sent Angel, helping me navigate my fears, understand karmic layers and past-life patterns, and gently guiding me toward my life purpose. It is pure bliss and a divine blessing to have Roshani Ma'am as a physical guiding presence in my spiritual journey." ~ **ZENIA M., - INDIA (NAME CHANGED FOR PRIVACY)**

"I was guided to Roshani Shenazz before I even contacted her, somehow, I had a question and stumbled upon her as my Healing Medium. And when the journey began, she had revealed to me more than I could have imagined. Everything about me and my partner was so true. At first, it was so hard for me to connect to her readings because I wasn't ready to accept, But the more I focused the more I was able to release of the things she asked me to. But today I look back and say that I have felt that just with one reading I let go a lot of the negativity and self-sabotaging thoughts I have held on to from so long. She is truly Gifted cause every time I get a reading done, she helps me heal from negative patterns and habits which are blockage in our own lives. Every time I fall into negativity which occurs at times still, I let her words speak to me. All is well Anne and All will be more well. I give thanks that I was guided to a very Gifted Healer. She is a truly amazing healer and my heartfelt Gratitude to her for helping me heal and her continuous healing sessions, so I can live my best here. To live in Joy, peace and abundantly. This is my heartfelt testimonial, it feels like I trust every word she tells me. :)" ~ **ANNE C - CANADA**

"I regularly do readings with Roshani Shenazz and once she called to give me a channelled message which said, **"All will be well and no one can harm anyone of you. And I should stop all worries."** I had been going through an exceptional bad spell in my relationship and my whole family is shifted to Mumbai and the extreme stress was killing me. I was having constant migraines and there were too many loose ends which refused to seal. This was increasing my anxiety and I was constantly praying for release from stress. Shenazz sent me the affirmation to do for the message she got, and by the end of the day I was feeling calmer and definitely at peace. Next day suddenly 2 of the news I was hoping for came through. Happy Tidings. My husband also suggested we take a weekend holiday and along with my kids, we had a very peaceful happy weekend. What a burden off my shoulders. Almost every day I get a sign from the Angels that they are watching over me and I am convinced that the affirmations and prayers are making me a better and a more confident person. My counsellor too was surprised as she noticed and acknowledged that I have become more confident and I have more control over my emotions. I don't cry very easily anymore and I am able to deal with nasty people in a very calm and brave manner & don't think I will need a counsellor anymore. Love the angels and Thanks to them Life is suddenly worth living. Thanks to Shenazz for introducing me to the lovely Angels. Shenazz is my own Sparkling Guardian Angel. God Bless." ~ **SIMIN MCKINNS, EXPAT, MUMBAI - INDIA**

"Roshani means light and you are Baba's light indeed. Your love and guidance are helping me to walk on the righteous path. I am indeed fortunate and grateful to you for having made me a part of the Baba and Angel family. I know deep down in my heart that physical distance does not matter. Your words shine bright in my soul. I love your smile and the warmth in your twinkling eyes. I would like to add that I was hooked on to antibiotics due to chronic migraine and severe menstrual cramps. Since the Angel workshop with you in August 2013, over 2 years ago, I have not taken any antibiotic, not even for a cough or cold. Something magical happened that day! Also, after the post-workshop cleansing, when I had the severe jaw infection, it was the affirmations and the prayers that you shared with me which healed me completely. The affirmations and prayers you share help me each day. Heartfelt gratitude to you, Roshani and lots of love and blessings forever." ~ **PREETI MINOCHA, FRENCH TRANSLATOR, BANGALORE - INDIA**

Through her wisdom, clarity, and unwavering guidance, I found alignment, purpose, and inner peace. Every word of guidance Roshani has given me has come true. Each step she asked me to take gently placed me on a magical path that unfolded exactly as shared to me in my Soul Guidance Reading. Her words didn't just guide my actions, they transformed my energy, realigned my thoughts, and reshaped my life in the most profound ways. I know that whichever life she touches is forever changed. Her guidance doesn't just show the way it awakens the soul and opens doors to a higher purpose with conscious actions." ~ **NEHA VERMA, CONTENT HEAD, DELHI/MUMBAI - INDIA**
